4.0 VERIFICATION METHODS AND DATA ............................................................ 25

4.1 V-Model Verification Approach ................................................................. 25

4.2 Analysis of Outputs Methods ..................................................................... 27

4.3 Hardware Planning Process Verification Activities and Data ..................... 28

4.3.1 Hardware Planning Process Inputs .......................................................... 28

4.3.2 Hardware Planning Process Reviews and Analyses ............................... 28

4.3.2.1 Hardware Verification Plan Review .................................................... 28

4.3.2.2 Hardware Planning Review .............................................................. 29

4.4 Hardware Requirements Process Verification Activities and Data ............... 31

4.4.1 Hardware Requirements Process Verification Objectives ....................... 31

4.4.2 Hardware Requirements Process Inputs ............................................... 31

4.4.3 Hardware Requirements Process Reviews and Analyses ....................... 31

4.4.3.1 Hardware Requirements Document Review ....................................... 33

4.4.3.2 Analysis of Hardware Requirements .................................................. 34

4.4.3.3 System and Hardware Requirements Trace Analysis .......................... 34

4.4.3.4 Hardware Requirements Transition Review ...................................... 35

4.5 Hardware Design Process Verification Activities and Data ......................... 36

4.5.1 Hardware Design Process Verification Objectives .................................... 36

4.5.2 Hardware Design Process Inputs ............................................................ 36

4.5.3 Hardware Design Process Reviews and Analyses ................................... 36

4.5.3.1 Functional Failure Path Analysis ...................................................... 37

4.5.3.2 Hardware Design Description Review ................................................ 38

4.5.3.3 Reviews and Analyses of Hardware Architecture .............................. 38

4.5.3.4 Hardware Preliminary Design Transition Review .............................. 39

4.5.3.5 Reviews and Analyses of Hardware Design ...................................... 39

4.5.3.6 Hardware Critical Design Transition Review ...................................... 40

4.6 Hardware Implementation Process Verification Activities and Data .......... 41

4.6.1 Hardware Implementation Process Verification Objectives ...................... 41

4.6.2 Hardware Implementation Process Inputs .............................................. 41

4.6.2.1 Reviews and Analyses of Hardware Implementation .......................... 41

4.6.2.2 Hardware Implementation Transition Review ..................................... 42

4.6.3 Hardware Testing Verification Objectives ............................................. 43

4.6.4 Testing Inputs ....................................................................................... 43

4.6.5 Hardware Testing Reviews and Analyses .............................................. 43

4.6.5.1 Elemental Analysis ........................................................................... 44

4.6.5.2 Elemental Analysis Method .............................................................. 44

4.6.5.2.1 Statement Coverage ................................................................... 45

4.6.5.2.2 Branch Coverage ........................................................................ 45

4.6.5.2.3 Condition and Expression Coverage ........................................... 45

4.6.5.2.4 Directed and Focused Expression Coverage ................................ 45

4.6.5.2.5 Toggle Coverage .......................................................................... 46

4.6.5.3 Elemental Analysis Results Resolution .............................................. 46

4.6.5.4 Shortcomings in Verification Test Cases or Procedures ..................... 46

4.6.5.4.1 Inadequacies in Requirements ..................................................... 46

4.6.5.4.2 Unused Functions............................................................................ 46

4.6.5.5 Element of No Safety Consequence .................................................. 46

4.6.5.6 Elemental Analysis Lifecycle Data ...................................................... 47

4.6.5.7 Hardware Verification Cases and Procedures Document Review .......... 48

4.6.5.8 Hardware Verification Transition Review ........................................... 48

4.6.5.9 Reviews and Analyses of Test Cases, Test Procedures, and Results .... 49

4.6.5.9.1 Review Checklists for Test Cases, Procedures, and Results ........... 50
4.6.6 Hardware Test Execution

4.6.6.1 Simulation and On-Target Testing

4.6.6.2 Test Environment

4.6.6.3 Requirements-Based Test Cases

4.6.6.4 Normal Range Test Cases

4.6.6.5 Robustness Test Cases

4.6.6.6 Requirements-Based System Verification Testing Methods

4.6.6.6.1 Assess results of requirements-based tests

4.6.6.6.2 Assess failure explanations and rework

4.6.7 Process-Specific Activities

4.6.7.1 Test Case Development

4.6.7.2 Test Case Verification

4.6.7.3 Test Procedure Development

4.6.7.4 Test Procedure Verification

4.6.7.5 Coverage Analysis Verification

4.6.7.6 Testing Environment

4.6.7.7 Test Execution

4.6.7.8 Test Results Verification

4.7 Production Transition Process Verification Activities and Data

4.7.1 Production Transition Process Verification Objectives

4.7.2 Production Transition Process Inputs

4.7.3 Production Transition Process Reviews and Analyses

5.0 VERIFICATION INDEPENDENCE

5.1 Peer Reviews

6.0 VERIFICATION ENVIRONMENT

6.1 Tools

6.1.1 Qualification of Verification Tools

6.2 Test Procedure Structure

7.0 ORGANIZATIONAL RESPONSIBILITIES

7.1 Responsibilities

7.1.1 Program Manager

7.1.2 Hardware Engineering

7.1.3 Independent Verification and Validation (IV&V)

7.1.4 Hardware Configuration Management

7.1.5 Hardware Process Assurance

7.1.6 FAA Hardware Designated Engineering Representative
